

U.S. AIR FORCE

AFTO FORM 874

TIME COMPLIANCE TECHNICAL ORDER SUPPLY DATA REQUIREMENTS

**EXAMPLE
EXAMPLE**

U.S. AIR FORCE

AFTO FORM 874

- **How to fill out form**
- **Definitions and Responsibilities**
- **What is an 874**
- **How to fill out the form**

U.S. AIR FORCE

AFTO FORM 874

- **What is an AFTO Form 874**

- The AFTO Form 874, Time Compliance Technical Order Supply Data Requirements (Figure 3-4 of 00-5-15), is used as an assembly document for all supply information required to ensure TCTO/TCTO Kits are available before the TCTO is released.
- The PMA must complete approval and processing of the form within 30 days of receipt from the contractor or other preparing activity.
- Requirements personnel must coordinate on the form if supply actions are required.
- The original signed copy of the form will be retained by the PMA as part of the history file of the modification for the life cycle of the system or commodity affected.
- Once the contract for the TCTO is signed, the contractor will complete an AFTO Form 874 (if kits or special tools are required) according to Paragraph 3.11 based on data in the AFTO Form 873 and forward the forms to the PMA for coordination and kit approval.

AFTO FORM 874

U.S. AIR FORCE

- When development of the TCTO has progressed to the point where the parts affected and kit requirements can be determined, the TCM preparing the TCTO initiates an AFTO Form 874 (Paragraph 3.11 of the 00-5-15).
- The AFTO Form 874 is required when TCTO kits or special tools/test equipment are required, when spares are impacted, and/or when parts are added or removed.
- An AFTO Form 874 is not required for inspection TCTOs unless required consumables, special tools, etc., are not commonly available at the performing units.
- If the AFTO Form 874 is not required, it is not necessary to include it in the six-part TCTO documentation folder.
- After completion of the AFTO Form 874 (when required), the TCM prepares the body of the TCTO IAW MIL-DTL-38804D.

NOTE

- If a TCTO requiring kits/special tools/test equipment must be released as an ITCTO, it may be processed and released prior to completion and approval of the AFTO Form 874.
- However, the TCM must obtain coordination and approval of the supply information in the draft ITCTO before it is released.

AFTO FORM 874

- NOTE
- If a TCTO requiring kits/special tools/test equipment must be released as an ITCTO, it may be processed and released prior to completion and approval of the AFTO Form 874.
- However, the TCM must obtain coordination and approval of the supply information in the draft ITCTO before it is released.

Slide 5

JM1

Hid slide because I added the NOTE to the slide prior.

MCLEAN, JEREMY K CIV USAF AFMC , 2025-10-30T14:10:22.767

U.S. AIR FORCE

AFTO FORM 874

- **PRODUCTION MANAGEMENT ACTIVITY (PMA)**
 - The program office (e.g. TCM/ES, Engineer, TO Manager, Production Management Specialist) that has responsibility for the acquisition and/or sustainment of a weapon system or commodity.
- **PROGRAM MANAGER (PM) – As per TO-00-5-15 (3.5.3.3.1 through 3.5.3.3.3)**
 - The PM will assign the item manager (Supply Planner as well) for the end-item.
 - Receiving the AFTO Form 874 from the PMA.
 - Assign any additional individual responsibilities and accomplish the coordination of TCTO supply data from affected individual component/piece/part manager.
 - Annotate any relevant supply requirements on the AFTO Form 874, obtain kit manager's signature in the block marked Kit Manager, and return to the PMA

U.S. AIR FORCE

AFTO FORM 874

- **TECHNICAL CONTENT MANAGER (TCM)/Equipment Specialist (ES) —**
The individual responsible for
- **Organically Prepared**
 - Submit the AFTO Form 874 for coordination of any supply actions
 - Notify individual IM and DLA responsible for items affected by the TCTO of potential impacts on assigned equipment.
 - Review the completed form upon return from requirements section and submit to PMA.
- **Contractor Prepared**
 - Review AFTO Form 874 within 7 days after receipt from the PMA to determine kit requirements and critical items. (As used, pertains to parts which could cause de-modification or create hazardous conditions if re-installed on modified equipment.)
 - Ensure the contractor has listed the NSNs for all stock listed items and the manufacturer part numbers and CAGE codes for non-stock listed items on the AFTO Form 874.
 - Include any items which will require re-identification after modification. Contact will be made with the PMA to obtain any missing information, and ensure the contractor as calculated the number of kits required for installs and spares (item in stock affected by the modification or inspection).

AFTO FORM 874

- **EQUIPMENT SPECIALIST (ES)**
- The individual or position responsible for assisting the acquisition team during the development/production phase and for technical management of a system, subsystem or commodity during the sustainment phase of a program.

Slide 8

JM1

Hid slide because TO-00-5-15 doesn't reference ES separate from TCM, its always TCM/ES, So I just combined the TCM and ES pages together

U.S. AIR FORCE

AFTO FORM 874

Heading Information

- **How to fill out the form**

- **Block 1 - Return To:** The activity preparing the TCTO (TCM/ES or contractor return address).
- **Block 2 – Date:** Form preparation date or (if contractor-prepared) date submitted to the government. (YYYY-MM-DD)
- **Block 3 - Date First Kit Must Be Available:** Determined by PM/LMS based on modification program requirements. (YYYY-MM-DD)
- **Block 4 - TCTO Number:** Obtain from the AFTO Form 873 or TO Manager (TOMA).
- **Block 5 - Data Code Number:** Obtain from the AFTO Form 873 or TO Manager.
- **Block 6 - TCTO Title and Application:** Obtain from the AFTO 873
- **Block 7 - Kit Assembly:** Check the appropriate box from the following choices; Contractor, Depot or DLA.

U.S. AIR FORCE

AFTO FORM 874

PART A

- **Block 1 – Kits to be furnished by requisition from:** Obtain from owning agency.
 - **Block 1a – Number of Kits required:** Enter the number of kits being acquired.
 - **Block 1b – Required materials requisitioned from appropriate agency:** Enter the agency from where the required materials will be obtained from.
 - **Block 1c – Delivery of Kits/parts is scheduled to begin about _____ and be completed by _____:** Enter the dates from the dropdown calendar that the scheduled delivery of kits/parts are expected to begin, and when the deliveries are to be completed.
- **Block 2 – Kit information and components. List all items required for the modification:** List all required kit information in the applicable column. List kit information on 1st line with components on subsequent. List the assigned NSN of the item being modified or inspected or the computer program identification number (CPIN) of the software being distributed. If an NSN has not been assigned, enter the stock class followed by the manufacturer part number, nomenclature, and CAGE (Commercial and Government entity code). List the applicable code from the choices listed (if applicable).

U.S. AIR FORCE

AFTO FORM 874

PART A

PART A. KITS/PARTS REQUIRED PER AEROSPACE VEHICLE, COMMODITY ITEM, OR EQUIPMENT END ITEM					
1. KITS TO BE FURNISHED BY REQUISITION FROM _____ a. NUMBER OF KITS REQUIRED _____ b. REQUIRED MATERIALS REQUISITIONED FROM APPROPRIATE AGENCY _____ c. DELIVERY OF KITS/PARTS IS SCHEDULED TO BEGIN ABOUT _____ AND BE COMPLETED BY _____					
2. KIT INFORMATION AND COMPONENTS. LIST ALL ITEMS REQUIRED FOR THE MODIFICATION THE FOLLOWING CODES WILL BE APPLIED IN THE CODE COLUMN (IF APPLICABLE): * = GOVERNMENT FURNISHED PROPERTY (GFP) # = ITEMS NOT INCLUDED IN KIT + = SHELF LIFE CONTROL ITEMS @ = TIME CHANGE ITEMS & = ITEMS WITH NO SUBSTITUTES					
QTY	NSN	PART NUMBER	NOMENCLATURE	SOURCE	CODE

U.S. AIR FORCE

AFTO FORM 874

Part B - Action Required On Spares

- **Block 1 – Spares to be modified:** Check the applicable box “YES” or “NO”. If yes, indicate action required in Action column with reference to the applicable phrase 1a through 1e.
- **Block 2 – War Reserve Material to be modified:** Check the application box “YES” or “NO”.
 - **Block 2a – War Reserve Material Stocks in storage site(s):** Enter where the items are to be shipped to and check the applicable box for Rework, Salvage, Reclamation, or any other applicable action.
- **Block 3 – Modified Locally:** Check the application box “YES” or “NO” if local modification is to be performed. If yes, perform the tasks listed in 3a through 3e. In item 3c, select the disposal date from the dropdown calendar. If 3e is utilized, enter any other action to be taken.
- **Block 4 – All Spares Information:** List all required spare information in the applicable column. Codes from Part A, Block 2 will be utilized in the Code column.

13

Slide 13

JM1

Although the original 874 didn't have a Part B snippet, I decided to add one.

AFTO FORM 874

Part D - Disposition of Removed and Replaced Parts

- Block 1 – Disposition Actions:** List all required part information in the applicable column. Indicate action required in Action column with reference to the applicable phrase in 1a through 1e. For item 1a, these parts will be returned to DRMO with instruction for disposition of removed and replaced parts. All items critical to flight safety, or will cause de-modification if reinstalled on modified equipment, will be coded as such. Instructions must be provided for mutilation of critical parts not usable in other applications. For item 1b, select the begin disposal action date from the dropdown calendar. If 1e is utilized, enter any other action to be taken.

PART D				
DISPOSITION OF REMOVED AND REPLACED PARTS				
1. DISPOSITION ACTIONS INDICATE REQUIRED DISPOSITION BY NUMERICAL REFERENCE TO APPLICABLE PHRASE				
a. TAKE IMMEDIATE DISPOSAL ACTION THROUGH LOCAL DEFENSE REDISTRIBUTION AND MARKETING ORGANIZATION (DRMO) CRITICAL ITEMS WILL BE MARKED WITH AN * IN THE NSN COLUMN. CRITICAL ITEMS PERTAIN TO PARTS WHICH COULD CAUSE DE-MODIFICATION OR CREATE HAZARDOUS CONDITIONS IF RE-INSTALLED ON MODIFIED EQUIPMENT. MARKED ITEMS WILL BE LISTED IN PART H FOR SPECIAL PROCEDURES				
b. BEGIN DISPOSAL ACTION ON _____				
c. RETURN PARTS TO LOCAL SUPPLY ORGANIZATION				
d. DLA ITEM (AFI 23-101, AFMAN 23-122, AND AFH 23-123V1)				
e. OTHER (Indicate action to be taken) _____				
NSN	PART NUMBER	NOMENCLATURE	SOURCE	ACTION
			▲

AFTO FORM 874

Part E - Minor Assemblies and Parts

- **Block 1 – Minor Parts and Assemblies Affected:** List all required information in the applicable column. Indicate action required for minor parts and assemblies in the Action column with reference to the applicable phrase from 1a through 1e. For item 1a, list minor parts and assemblies to be returned to DRMO with disposal action. For item 1b, select the disposal action date from the dropdown calendar. For item 1d, follow the guidance provided by AFI 23-101, AFMAN 23-122, and AFH 23-123V1. If 1e is utilized, enter any other action to be taken.

PART E		MINOR ASSEMBLIES AND PARTS	
LIST ALL OFM/DEPOT AND TRC PARTS <i>(Bits and Pieces)</i> AFFECTED			
1. MINOR PARTS AND ASSEMBLIES AFFECTED			
• INDICATE ACTION REQUIRED IN ACTION COLUMN BY NUMERICAL REFERENCE TO APPLICABLE PHRASE a. TAKE IMMEDIATE DISPOSAL ACTION THROUGH LOCAL DEFENSE REDISTRIBUTION AND MARKETING ORGANIZATION (DRMO) b. BEGIN DISPOSAL ACTION ON _____ c. RETURN PARTS TO LOCAL SUPPLY ORGANIZATION d. DLA ITEM (AFI 23-101, AFMAN 23-122, AND AFH 23-123V1) e. OTHER <i>(Indicate action to be taken)</i> _____			
NSN OR CAGE CODE	PART NO.	NOMENCLATURE	ACTION
